

Saurabh Yadav

2nd Year Undergraduate
saurabhshadow30@gmail.com | +91 9554630599

EDUCATION

IIIT NAGPUR

B.TECH IN COMPUTER SCIENCE
2018-2022*

LINKS

PROFILES

- Github: [saurabhshadow](#)
- LinkedIn: [saurabhshadow](#)

SPORT PROGRAMMING

- Codechef: [saurabhshadow](#)
- Codeforces: [saurabhshadow](#)
- ICPC ID: 2NZ30WJ90X3W

COURSEWORK

UNDERGRADUATE

- Data Structures and Algorithms
- Operating Systems
- Object Oriented Programming
- Linux Programming

SKILLS

PROGRAMMING

C • C++ • Python • Java

WEB TECHNOLOGIES

Django • HTML • CSS • Bootstrap

INTEREST

Competitive Coding • Problem Solving
• Software Development • Athletics

ACHIEVEMENTS

- Among **2.83%** in the world at Codechef.
- Secured **1st** rank in college in **ACM-ICPC** preliminary online contest held in Oct'19.
- Represented IIIT Nagpur at Amritapuri regionals held in Dec'19 for ACM-ICPC regionals contest.
- **Ranked 1st** in college in Inter-IIIT Coding Contest organized by IIIT Una.
- **Ranked 11th** in **NJACK Winter of Code** organized by IIT Patna.
- **Contributor at Codechef**: was among top 5 contributors in July at Codechef Discuss.

EXPERIENCE

GEEKSFORGEES - TECHNICAL CONTENT WRITER

April 2020 – Present

- Published articles on Data Structure and Algorithms.
- Technologies used - C++ | C | Python | STL | Latex

NJACK WINTER OF CODE

Dec 2018 – Jan 2019

- Participated in NJACK Winter of Code organised by Indian Institute of Technology, Patna on the lines of Google Summer of Code.
- Contributed to various projects having real-life use.
- Contributed to projects like **cool-name-api**, **Algorithms with git**, **Learn-Japanese**.

PROBLEM SETTER AT CODECHEF

Jun 2019 – Present

- Problem setter for Codechef's various programming contests.
- Problems based on Data structures and Algorithms, maths, greedy and implementation were set.
- The list of problem set by me can be found [here](#).

PROJECTS

- **CF Profile Report**: Automated Codeforces profile using web scrapper which saves the profile in a text file.
- **Linux Mini Terminal**: A Linux terminal implemented in C programming language using concepts of fork, exec, signals, pipes etc. Different kinds of interrupts were also handled.
- **Codechef Contest Arena**: The app is designed to simulate Codechef's past contest. Functionalities like Login using CodeChef API OAuth2, select any past contest, Ranklist, etc were implemented

POSITIONS OF RESPONSIBILITY

SECRETARY | DOTSLASH COMMUNITY

Dec 2018 – Present | IIIT Nagpur

- Organised various online Coding Contests.
- Helped in planning Programming Club's activities and timeline for one year.
- Student mentor at Winter of Code 2019 held at IIIT Nagpur.
